* - Transferred to County

**- Hoffman-Boston began as a school for black students. In 1964, senior high students were transferred to other high schools; in 1965, junior high school students were transferred to other junior highs. From 1972 to 1978 the building was used as an alternative junior high, which was consolidated with the Woodlawn alternative senior high program in September, 1978, at the Stratford building.
